Fri - Nov - 22

Dear Mother, Johnny and all:

I'm over at Janets doing my  
washing so I thought I'd drop you  
a line. we just finished working  
the horse or I guess I should  
say trying to work her, she sure  
gets stubborn and I'm still scared  
so you can just imagine how  
well we do. Tonight we have a  
pack meeting and the boys will  
receive their Bob Cat pins, David  
is real excited about it. we  
are going to be in a Xmas  
parade on Dec 4<sup>th</sup>, will walk  
approx 28 blocks, we hope its  
not to cold, its for the Xmas  
parade they have in Springfield,  
I'll send you some pictures. I  
haven't heard from anyone all  
week which is unusual for  
us, I hope everything is ok.  
How are you all getting along?

2

I sure wish some one from  
there would write. I havent  
heard from Brenda so I guess  
she doesn't want to write, which  
is fine with me but I feel  
bitter having imagined about  
the girls. I have to stop to finish  
my wash so I'll write more  
tomorrow cause I won't be  
home tonight.

Mon - Nov 25

Hi, well here I am again and  
its not exactly the next day.  
Sat. we put David on Spencys back  
she do so good, we led her around  
with him on her, then Becky sat  
on her for a few minutes, but  
Becky can only sit on her for  
approx 5 min. a day until  
this Spring so we will use  
David as weight. Sun. we  
put a bit in her mouth and  
the girl that was helping us  
said she did better than any

horse she has seen for the first time - Ha - you should have seen her tongue going over and under the bit. She really looked like France the mule, later in the day we went to the Museum of Art at the University, it was real interesting, then we went to a museum of science in Eugene and the kids really enjoyed.

I got a letter from Rev. Lat. everything is as you always same as usual: wally bought her a new mustang for 4 mos so shis pretty happy about that. Gotta go.

Well here I am again. Yesterday afternoon I hurt myself again I was doing deep knee bends and I went down hard and wrong and within an hour

goin (if that's what it is) was  
so sore and swollen I can't  
even walk with my right leg  
and this morning all the muscle  
around the upper part of my  
knee is numb. Grr! I've always  
exercised and never had trouble  
like this.

Well I guess that's about  
all for now, take care and  
have a nice Thanksgiving,  
even though you'll probably get  
this after Thanksgiving.

Love to all  
Linda
